What You Buy With WAR BONDS

One of the most essential articles of equipment for our soldiers is his canteen. In equatorial countries and in other warm climes they are particularly important to the welfare of our fighting men.

The canteen, now being largely manufactured of plastics, costs about 43 cents. The canvas cover . . . about 61 cents or 84 cents in all. Your purchases of **War Bonds**, or People's **Bonds**, will buy many of these for our men in the Solomons or in Africa where they are badly needed. **Buy War Bonds** every payday . . . at least **ten percent** of your income . . . through a **Payroll Savings plan.** *U. Let's Talk About Money . . . and WAR

When you hear that bombing planes cost $335,000, tanks $75,000, anti-aircraft guns $50,000—And when you hear, too, that America needs 60,000 planes, 45,000 tanks, and 20,000 anti-aircraft guns at once—

It doesn't take much figuring to see that winning this war calls for every dollar all of us can scrape together. With our freedom at stake—with our farms, families, even our very lives depending upon the outcome, we'd gladly give this money.

But we aren't asked to do that. Our Government asks us only to lend the money—to put our increased earnings into War Bonds—month after month—until this war is won. In doing so, we save for our own security as well. For we get back $4 for every $3 we invest, when the Bonds are held 10 years. And if we need the money, we can get it all back any time after 60 days from issue date.

This is the American way—the volunteer way—to raise the billions needed for Victory. And the money can . . . will . . . must be raised.

So let's show them that the farmers of America are helping to win this war in two vitally important ways—by producing more Food for Freedom and by saving more in War Bonds.

PRESENT—ARMS!—American soldiers in North Africa were taken by surprise when President Roosevelt rode by in a jeep driven by young Sergt. Oran Lass, who joined the Army in Kansas City. In the rear seat is Lieut. Gen. Mark Clark whose secret landing in Algeria from a submarine was one of the high adventures in the campaign.

Passing Thru Tripoli

THREE MONTHS OF TOUGH FIGHTING across 1400 miles of unfriendly African desert brought the British to the main Axis base of Tripoli. This picture, received in America by radio from Cairo, shows cruiser tanks of the victorious Eighth Army passing through the city of Tripoli while natives look on. The British did not stop in Tripoli long. They are already reported inside Tunisia pursuing the retreating Axis armies.
